EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. J. Krueger, esq., on 03/15/2007.

The application has been amended as follows:

Cancel claims 16, 17.

In claim 12 replace the number "40" after the words "having a depth in a range of from" by the number ---200---

In the specification on page 1, after the words "This application is based on Patent Application Nos. 2000-256202 filed August 25, 2000 in Japan and 2001-047750 filed February 23, 2001 the content of which is incorporated hereinto by reference. " insert ---
This application is a divisional of U.S. 09/939,388, now U.S. Patent 6,742,529.---

Response to amendment

2. All previous rejections have been overcome by the amendment, filed 12/22/2006 in combination with the Examiner's amendment and the said objections and rejections are withdrawn.

Allowable Claims

3. Claims 12, 14, 15 are allowable over the prior art of record.

Reasons for Allowance

4. The following is an examiner's statement of reasons for allowance: while being the closest prior art of record, U.S. 5,443,652 to Scarola fails to anticipate or suggest fairly a method for cleaning thermoplastic/polymer material, which includes the step of contacting crushed pieces of said material with the surfaces of inner vessel and/or agitating body having specific roughness. Applicants have demonstrated that contacting the crushed pieces with the surfaces of inner vessel/agitating body having roughness within the claimed range produces superior cleaning results compare to the similar cleaning method wherein the surfaces of the vessel/agitating body were not roughened.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
